Dear Harold-

I'm enclosing an article on Vincent Buglioso and his new book which puts the guilt on Oswald. As you remember he was the attorney who played the prosecutor on HBO's TRIAL OF LEE HARVEY OSWALD.

As to where you can write Oliver Stone: I called his production company and they assured me that any mail will go right to him (although my guess is secretaries screen it). But I would think he'd want to talk to you since Garrison used much of your research in his trial. You can write to him C/O IXTLAN
